

WELCOME TO FAYAIR

fayair

TRAVEL WITH DISTINCTION

Fayair is dedicated to providing discerning clientele with a seamless travel experience of the utmost elegance. We believe in paying attention to every detail. Our small, highly-experienced team are selected to deliver a level of personal and aircraft handling services that is truly unsurpassed.

Based at London Stansted Airport, the Fayair FBO is ideally situated within 35 miles of the City of London and 30 miles of Cambridge. With excellent transport links to London, Cambridge and beyond, Stansted is the perfect starting point for either business or pleasure.

Aircraft Handling

Aircraft up to and including BBJ3 size can taxi directly onto our ramp and we can handle up to B757 size on the ramp. Both ramp parking and hangarage facilities are available for your aircraft, and you will find competitive fuel rates on offer. Our staff can also carry out any toilet and water servicing you may require.

Ground Support Equipment

In order to provide the highest level of ground handling, we have invested in our own, brand-new ground equipment. Not only does this mean that we are not reliant on third parties, but also that only the newest equipment is attached to your aircraft, ensuring we deliver a superior level of reliability. We are fully equipped and able to handle any size aircraft.

Operations

When it comes to providing flight support, the operations room is pivotal. Ours is fully accessible, enabling face-to-face crew liaison and any arrangement of third party services.

Car Parking

Secure car parking is offered within the perimeter of the facility.

Security

On-site security and 24-hour CCTV monitoring is in place to ensure the safety of all passengers, aircraft and facilities.

Passenger Facilities

Simple details such as a covered drop-off area and a warm welcoming smile make all the difference. With refreshments and catering on hand, you will find time spent in the lounge will exceed ordinary comfort.

Our multi-faith prayer room is set apart from the lounge, offering seclusion for quiet reflection and prayer.

All the formalities of security screening are completed in private, before you are met airside by your vehicle and conveyed to your waiting aircraft.

Children

If there are any children included in your travelling party, we can provide for their entertainment. An area of the lounge can be converted for their use and there are iPads (and other surprises!) to help the time pass quickly. Baby changing facilities are of course available.

Gym

A small on-site gym containing a multi-gym, treadmill and rowing machine gives the energetic a chance to work out. And there are shower and changing facilities, too.

Direct Passenger & Vehicle Ramp Access

If the security designation of your flight permits, there is no need for you to enter our facility if you do not wish to. We have our own self-controlled landside-to-airside gate with vehicular access directly onto our ramp to ensure swift, smooth travel. From arrival at the FBO you can be airside in minutes.

Immigration

Should the UK Border Force need to see a passenger, we have the necessary approved arrangements in place to facilitate this upon arrival.

Crew Lounge

You can relax in the crew lounge with a coffee, put your feet up in front of the television, or take advantage of the internet access and ample work space to finalise the finer points of your flight plan. Keep an eye on your aircraft from the luxury of the crew lounge via a CCTV monitor. You can also freshen up for the next stage of your journey in the crew washrooms, complete with hair-styling tools and make-up mirrors.

Crew Rest

Our luxury en-suite bedrooms offer a restful solution to the hustle and bustle of hotels. All three rooms are furnished with the Starwood Hotel's range of Heavenly® Beds, flat screen TV, and tea and coffee making facilities. Although primarily intended for use by the crew, the rooms are also suitable for passengers, should the need arise.

Drivers Lounge

Drivers can spend a considerable time waiting for aircraft to arrive. Our drivers lounge allows them space to unwind in front of the TV, make refreshments while they wait and check traffic in advance.

Offices

We have fully serviced office accommodation available within the facility for permanent occupation.
